

ALLYSHIP*

Allyship means engaging in someone else's battle and making power structure visible, even if you benefit from them.

HOW CAN I BE A GOOD ALLY ON THE INTERNET?

- Listen and take in what people with interpretive prerogative have to say. Inclusive listening is done letting the person speak and not questioning their feelings or experiences.
- Back each other up, if you see something happen, ask the affected person how they are feeling.
- Speak out when someone acts or expresses themselves offensively, even if it happens in a context that does not seem to include the violated group. You can never know who is represented in the room. Speak out because it is the right thing to do!
- Think about your own prejudices and privileges.
- Speak with -- not about -- people.
